

INSTRUCTIONS FOR EXTERMINATION OF ROACHES ON PREMISES (Spraying)

1. Remove all Animals and Fish from premises, or cover fish tanks with plastic and turn pumps off.
2. Remove **ALL** contents from **ALL** cupboards and drawers. Remove and destroy any infested foods.
3. Store contents away from kitchen, and cover with a sheet or plastic.
4. Clear off counter tops; also fridge and stove; wash cupboards if required.
5. Empty out **ALL** other food storage areas; also under bathroom sink, and storage closets.
6. Move **ALL** furniture 6 INCHES from wall. Make sure **ALL** baseboards are accessible.
7. **DO NOT** wash cupboards or baseboards for **3 months** unless necessary. Upon re-entry to your suite, you must wash counter tops, tops of fridge and stove, breadboards.
8. **PLEASE NOTE: All people & pets need to be out of the premises for a minimum of 4 hours or until chemical is dry; the elderly, children, pets and anyone with respiratory illnesses should be out longer.**

WE ARE NOT LIABLE IF THESE INSTRUCTIONS ARE NOT FOLLOWED

All above instructions must be completed before extermination has started.
