

ROACH BAITING PROGRAM With Maxforce Bait Gel PCP#24240

DATE: _____ DAY: _____ TIME: _____ SUITE: _____

This baiting program provides continuing Roach Control. The best part is you will have minimal preparation (as follows) & you do not have to leave your suite.

- Pull out the fridge & stove about a foot. Vacuum & wash behind the appliances thoroughly if required.
- Remove items from on top of your fridge so we can access the cupboards.
- Empty under kitchen & all bathroom sinks.
- Remove all empty pop, juice, beer cans/containers from premises.
- If you are not going to be home when we come to do the roach baiting treatment, please leave a note detailing where you see the roaches. Do not say “everywhere” or kitchen. Please be as “**specific**” as possible. This will greatly improve in the control of the roaches. **EG:** under the kitchen sink or seen in the living room by the window or in the bathroom cabinet. This program takes from 2 to 4 weeks for you to start noticing less roaches.

If you have any questions or concerns, call us.

THANK YOU FOR YOUR COOPERATION
